PROFESSIONAL SUMMARY

Computer Science and Engineering undergraduate with a strong foundation in Java, Python, Data Structures, OOP, and DBMS. Hands-on experience in AI and Machine Learning through projects utilizing Python, TensorFlow, OpenCV, and Large Language Models (LLMs). Eager to contribute technical skills, problem-solving abilities, and a continuous learning mindset in an entry-level Software Engineer or AI/ML Engineer role.

TECHNICAL SKILLS

Languages:	Java, Python, SQL, HTML, CSS
AI / Machine Learning:	TensorFlow, OpenCV, Large Language Models (LLMs), Machine Learning Fundamentals
Tools & Databases:	Git, Visual Studio Code, Node.js, MySQL
Core Concepts:	Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Database Management Systems (DBMS)

EDUCATION

Visvesvaraya Technological University	<i>Belagavi, Karnataka</i>
<i>Bachelor of Engineering in Computer Science and Engineering — CGPA: 8.37 / 10 (Till 6th Sem) Aug 2022 – June 2026</i>	
• Relevant Coursework: AI & Machine Learning Fundamentals, IoT & Embedded Systems, Advanced Java, Industrial Data Analytics.	

ACADEMIC & APPLIED PROJECTS

Emotion-Aware Code Tutor Based LLM	<i>Jan 2026 – Present</i>
<i>Technologies: Python, TensorFlow, OpenCV, LLMs</i>	
• Developed an AI-powered coding tutor designed to detect learner emotions through eye-gaze tracking and typing behavior analysis.	
• Integrated personalized AI-based coding assistance to enhance student engagement and provide adaptive learning support.	
Food Expiry Tracker	<i>Dec 2025</i>
<i>Technologies: Node.js, MySQL, HTML, CSS</i>	
• Designed a smart food expiry tracking web application system aimed at reducing food wastage across households.	
• Developed automated features to monitor expiry dates and notify users via real-time alerts before product shelf-life expiration.	

INTERNSHIPS & PRACTICAL EXPERIENCE

Java Full Stack Development Intern	<i>June 2025 – August 2025</i>
<i>Codesoft Technologies</i>	
• Completed intensive hands-on training in Java Full Stack Development and modern web application architectures.	
• Utilized Java programming fundamentals, data structures, and Object-Oriented Programming (OOP) concepts to build backend software components.	
• Strengthened system debugging, testing codebases, and application problem-solving skills in a collaborative professional environment.	

- Gained practical exposure to real-world software development lifecycles (SDLC) and Agile methodologies.

CERTIFICATIONS & ACHIEVEMENTS

- **Certification:** Java Full Stack Development Certified – Codesoft Technologies
- **Achievement:** Competed in *Codethon 2025* organized by VCET Puttur.
- **Core Competencies:** Analytical thinking, collaborative teamwork, software version control, and clear technical communication.
